

Product Datasheet

Hydrotropic Alcohol 99%

Olfactive Description : **Green,Spicy,Hyacinth,Balsamic**

|                  |                                    |
|------------------|------------------------------------|
| Chemical Name    | : 2-Phenylpropan-1ol               |
| Chemical formula | : C <sub>9</sub> H <sub>12</sub> O |
| Molecular Wt.    | : 136.1                            |
| CAS No           | : 1123-85-9                        |
| FEMA No          | : 2732                             |
| Synonym          | :2-phenylpropan-1-ol.              |

Physio-Chemical Properties

|            |                          |
|------------|--------------------------|
| Appearance | : Clear colorless liquid |
| Flashpoint | : >100°C                 |
| Purity     | : 99% min                |
| Log p      | : 1.86                   |

Stability & performance

|                          |   |
|--------------------------|---|
| Stability                | : Stable in all media                         |
| On a smelling strip      | : >48 hrs                                     |
| On Burning               | : good  |
| Usage Level              | : upto10%                                     |
| Recommended Applications | : Soaps,Detergents,Fine Fragrences,Agarbathi. |
| Occurrence               | : Not found in nature                         |
